

DIGITAL ELEVATION & GROWTH PROPOSAL

Prepared for: African Health & Education Initiative | Date: August 27, 2026 | Prepared by: Joel Adawah & Team

1. Executive Summary & Recommended Tier

Selected Package: Tier 3: Enterprise Full-Stack (Web + GMB + GEO)
Service Focus: Both (Website + GMB SEO)
One-Time Investment (Setup): NGN 600,000 NGN (\$420 USD) One-Time Setup
Ongoing Retainer (Maintenance): NGN 50,000 NGN/month (\$35 USD/mo) Full Authority & AI Search Indexing

2. Executive Conversion Strategy & Roadmap

- **Core Strength:** established presence in Abuja. Primary Problem Identified: Lacking both an official website and an optimized Google Business Profile (Position #14).
- 1. **THE REAL-WORLD ANALOGY (Simple Explanation):** Lacking both a website and an optimized Google Maps profile is like running an organization with 'No Highway Signpost' AND 'No Front Door'. People searching in Abuja can't find your sign, and even if they try to visit, there's no front door. We build both your Main Street Highway Sign (GMB Top 3) and your Glass Headquarters Front Door (Web Portal).
- 2. **OUR ACTIONABLE SOLUTION & TECHNICAL APPROACH:**
 - **Step 1 (Highway Signpost Setup):** Standardize NAP location signals, verify contact phone details, and publish geotagged project photos for Abuja.
 - **Step 2 (Glass Headquarters Front Door):** Build a fast, mobile-first web portal linked directly to your map profile with intake forms and compliance reports.
 - **Step 3 (Review & Reputation System):** Launch a compliant review request workflow to build authentic proof on Google Maps.
 - **Step 4 (AI Search Engine Indexing):** Embed JSON-LD schema across web & map assets so AI engines (ChatGPT, Gemini, Copilot) recognize African Health & Education Initiative as a top regional leader in Abuja.
- 3. **EXPECTED OUTCOME & TIMELINE:** Complete digital authority, 100% verification readiness, and steady 30%+ growth in inbound partner inquiries over 3 to 6 months.

3. Itemized Scope of Deliverables

- **DELIVERABLE 1:** Full-Stack Web Portal + Google Business Profile Location Signal Sync
